Hi Shari,

It sounds like they don't want to share an editable spreadsheet for some reason. Can we instead have them identify the changes made compared to the previous version?

Hi Calvin

Yes, it is. But I was hoping it would have been editable to figure out what has changed. I understand their needs.

Do you think we could ask for something we can manipulate if we make it clear it is for internal use only?

I'm checking with my FR expert about the call.

Thanks.

Hi Shari, is this spreadsheet the most updated one you are looking for?

Hi Calvin,

Per your request, please find attached an excel version of the Mendota Project Preliminary Risk Register that was submitted with our Response #2 (dated 31-Oct-2020).
Based upon our legal team's advice, the spreadsheet has been locked to eliminate the ability to change the content, i.e. set Read Only status.

Hope this helps and let us know if you have any questions or need anything else.

Thanks again and best regards,
-Rebecca

Hi Rebecca,

We have received your response to our information request #4 via GSDT.

Please let us know about when we should expect to receiving the most updated Risk Register spreadsheet.

Thanks,

Calvin

Hi Calvin,

We confirmed the excel version sent over prior to our call is not the latest version of the Risk Register, i.e. not exactly the same as what was submitted with our updated ERR plan (in PDF form). Schlumberger is doing a quick clean up on the excel version now. So, we should have it over to you in the coming days.

Also, just as a quick update, we have completed our response to Information Request #4. I should have it uploaded to the GSDT either later today or early tomorrow. Good news is there is no CBI in this response. So, no separate transmission required. 😊

Thanks and have a good day,
-Rebecca

Hi Calvin,

Thanks for reaching out.
I am not sure so let me double check and get back to you.

Happy Wednesday,
-Rebecca

Hi Rebecca,

We have a quick question about the risk register spreadsheet included in the emergency and remedial response plan of your Response #2.

Can you please either confirm that Response #2 contains the same spreadsheet CES shared in October (attached to Natalie's 10/27 email) or to provide a copy of an updated spreadsheet?

Best regards,

Calvin

Hi Calvin,

I hope this email finds you well.

I uploaded our Response to EPA's Technical Evaluation Comments and Information Request #2 to the GS Data Tool site today. It appears the file was accepted but wanted to make sure you received it - looks like we missed the 31-Oct-2020 deadline by a (business) day.

Also, per our discussion, the version uploaded to site does not include Confidential Business Information (CBI). So, I would like to make arrangements to directly send you a secure version that contains the CBI material. I am hoping we can use the method we have used in the past by emailing a password protecting a PDF-file.

Please let me know your thoughts.

Thanks again and happy Monday,

-Rebecca

Hi Rebecca,

We have issued our second technical evaluation comments and information request today via the Information Request module of GSDT. Let us know if you have any questions about the request.

Sincerely,

Calvin Ho
